

NJ 12 Red Box Back-Up (March 2026)

Statement	Back-Up
This race isn't about ideology or insiders. It's about who is ready on day one to deliver for NJ-12.	Adrian Mapp distinguishes himself in this field not simply because he is a mayor, but because of the depth and scope of his executive leadership. As a four-term chief executive of a diverse and complex city, he has balanced budgets, overseen major redevelopment, strengthened public safety, and secured substantial public and private investment. His leadership has been tested over time and reaffirmed by voters. He brings not only the title of mayor, but a record of measurable results, long-term stability, and experience navigating local, state, and federal systems to deliver for residents.
